# MAYHEM

W H E E L S

Mayhem Wheels are built for those who refuse to follow the beaten path. Designed with relentless precision and forged for the bold, our wheels deliver uncompromising strength, performance, and style for the toughest terrains.

Whether tearing through rocky trails or owning the city streets, Mayhem gives you the confidence to push limits and break rules. We stand with the fearless—those who demand more from their rigs and refuse to settle. This isn't just about wheels; it's about attitude, community, and a little bit of chaos. So gear up, take control, and let's cause some Mayhem. Unleash the Chaos!

Cali Off-Road Wheels isn't here to blend in—we're here to take over. Bold, unapologetic, and built to turn heads, our wheels are made for those who own the road and demand attention wherever they roll. We're talking extreme designs, aggressive fitments, and a presence that can't be ignored. Whether you're flexing on the trails or showing off downtown, Cali brings the style, strength, and swagger to back it up. Confidence isn't optional—it's built into every wheel we make. If you're ready to stand out and show the world why you run things, welcome to Cali Off-Road.

Dirty Life Racing Wheels are built for those who don't just race—they dominate. Engineered for the toughest terrains and the most brutal conditions, our wheels are battle-tested to give you the strength, performance, and confidence to take the lead. From the desert to the rocks, mud, and beyond, we design every wheel with precision and grit, so your rig isn't just ready to compete—it's ready to win. And let's be real, looking this good while crushing the competition is just part of the game. Dirty Life Racing Wheels—because anything less is just playing in the dirt.

# NO LIMITS WITH DUAL-TEK TECHNOLOGY

At the heart of our Dual-Tek Wheels lies a groundbreaking technology that sets them apart. These wheels feature a dual-beadlock design, combining the best of both worlds. The inner beadlock ensures tire retention and stability, even under extreme conditions, while the outer beadlock adds an extra layer of security, making tire failure practically non-existent.

CHALLENGE ANY TRAIL WITH  
THE DUAL-TEK SERIES

## BEADLOCK RING

For off-roading, rock crawling and extreme race conditions, throw on the **Dirty Life Forged Race Ring** to clamp & bolt the wheel's outer edge, securely holding the tire bead in place.

CRUISE THE STREETS WITH  
THE DUAL-TEK SERIES

## SIMULATED RING

The **Dirty Life Simulated Ring** mounts D.O.T. street legal tires to our 17 & 20" wheels. This is the first but not the last use of these wheels, read below to learn more.

# CONQUER THE DIRT

## RACE SERIES BEADLOCK

DLRW Beadlock racing wheels are designed primarily for off-road and racing applications. The DLRW Beadlock ring is clamped and bolted to the wheel's outer edge that securely holds the tire bead in place to keep your tires from "unseating" or coming off the wheel during off-roading, rock crawling and extreme race conditions where low tire pressures are used for better traction.

### What are Compound Forged Wheels?

A forged barrel is precision-welded to a cast center using an advanced friction stir welding process, creating a wheel that is stronger, lightweight, and built for performance.

FORGING THE  
BARREL

+

CASTING THE  
CENTER

+

FRICTION STIR  
WELDING

### 1 PREPARATION

The cast center and forged barrel of the wheel are securely clamped together.

### 2 TOOL INSERTION

A rotating tool with a pin (probe) and shoulder is inserted into the joint line where the cast center meets the forged barrel.

### 3 FRICTION HEATING

The tool rotates and moves along the joint line, generating heat through friction. This heat softens the metal without melting it.

### 4 FRICTION HEATING

The rotating pin stirs the softened metal from both the cast center and the forged barrel, mixing them together. The shoulder of the tool helps to consolidate the material and maintain the weld's shape.

### 5 COOLING & SOLIDIFICATION

Once the tool passes, the mixed material cools and solidifies, forming a strong, seamless joint.

## CONTROL EVERY TERRAIN

Amp Tire is built to conquer, no matter the terrain. With miles of rigorous testing in the harshest conditions—on and off the road—our tires have proven their dominance in the most extreme weather and toughest landscapes. Engineered for power, reliability, and unmatched durability, Amp Tires deliver the control you need to take on anything in your path. Whether it's rock crawling, mudding, or tearing down rugged trails, these tires stand up to the challenge with aggressive performance and sturdy resilience. Amp Tire—ready to dominate every mile, every terrain, every time. Control Every Terrain!

# THE TERRAIN ATTACK R/T

Designed for the true off-road enthusiast, the Terrain Attack R/T is engineered to conquer the toughest terrains with ease, delivering exceptional performance and durability, without compromising on-road comfort.

## 2 SIDEWALL DESIGNS. SAME OPTIMAL PERFORMANCE.

The Terrain Attack R/T features two unique sidewall designs, allowing for further vehicle customization.

SIDEWALL 1

A rugged, pocketed block design with varying heights combines style and exceptional off-road performance.

SIDEWALL 2

A dynamic stepped V-pattern, along with integrated Amp "A" tread blocks, generates numerous gripping edges along the sidewall.

#CONTROLEVERYTERRAIN

# Terrain Attack R/T

### OFF-ROAD TRACTION

Stone ejectors channel away water, mud, rocks, & other debris to maintain maximum grip and performance.

### ALL-SEASON PERFORMANCE

Large, open shoulder blocks greatly improve off-road traction and enhance grip in extreme weather conditions.

### LONG-LASTING DURABILITY

Staggered sidewall provides protection against punctures and abrasions in harsh environments.

### WIDE CONTACT CENTER PATCH

The versatile, hybrid tread patterns features a wide contact center patch that increases surface coverage on any terrain, while providing longer tread life and a quiet and smooth ride on the road.

### VARIABLE PITCH TREAD PATTERN

Innovative tread design optimizes road contact, reduces road noise, and enhances overall performance

# Terrain Attack A/T A

## PERFORMANCE TREAD DESIGN

Unique multi-block tread design ensures smooth ride quality along with superior off road handling and grip.

## TWIN-LUG SIDEWALL

Sidewall designed with dual variation lug technology for greatly improved traction in all environments and weather conditions.

## OFF-ROAD PERFORMANCE

The staggered tread block design was made to improve traction in loose dirt, debris and sand.

## STAGGERED TREAD DEPTH

Deep, stepped tread blocks channel dirt, mud, and water away from the tire in all weather conditions.

## PERFORMANCE TREAD DESIGN

Stepped tread blocks allow more stable control and multidirectional sipes create greater traction.

## OFF-ROAD PERFORMANCE

Advanced compound prevents chipping and delivers a longer tread life with more consistent contact surface to deliver a smooth and controlled ride.

## STEEP TREAD DEPTH

Deep grooves and rock ejectors keep tread grooves free of mud, dirt, and gravel while mitigating possible punctures

## TWIN-LUG SIDEWALL

Unique "twin peaks" sidewall and open shoulder design deliver assertive performance in every condition and help evacuate water & mud for improved traction.

# MUD TERRAIN ATTACK M/T A

The AMP Terrain Attack M/T is designed to perform in the most extreme conditions while offering improved grip and handling for better on-road performance. The 3-ply “A” logo sidewall provides biting edges and outstanding grip in mud, rock, sand, snow and more. A full range of sizes up to 38 inches tall, the Terrain Attack M/T will conquer anything in its path.

### PERFORMANCE TREAD DESIGN

The deep sipes and distinct channel design significantly increase traction in wet conditions.

### OFF-ROAD PERFORMANCE

The unique shoulder design features a staggered tread block that provides reliable grip in unreliable terrain and consistent traction for better on road performance.

### AGGRESSIVE TREAD

The tread pattern is aggressively designed to remove mud, dirt, and debris while keeping continuous contact for superior off road traction and better on-road control.

### TWIN-LUG SIDEWALL

Reinforced sidewall boasts “A” logo lug design which provides dynamic biting edges to maintain grip through the most extreme conditions or when airing down tires.

## ALPINE SERIES

### ALUMINUM HARD SHELL TENT

The Alpine Roof Top Tent features a dual-action opening roof. Open the rear section of the tent for a wedge or open the front section for a full pop-up and additional windows with screens. One person can deploy the Alpine in one minute for quick & easy setup and pack down!

The Alpine is constructed with durable antibacterial waterproof, high tear resistance, and stronger tensile than normal roof top tent fabric. The Alpine is our ultimate aluminum roof top tent that can withstand the elements for 4 season camping!

- Gas struts allow for dual action opening roof (wedge or pop-up option)
- Roof rack on top of tent (great for kayaks, bikes, and gear)
- Blackout coated fabric (full-screen room with 360-degree visibility to full dark room)
- T-Slot using standard M8 hardware surrounding exterior of tent, 4 T-Slot rails in total (mount awnings, shower tents, water supplies, etc. directly to tent)
- Under 8" slim profile when packed up and latched (excludes additional roof rack height)
- 3 Entryway options based on build (passenger side, driver side, rear)
- Window awnings (removable)
- Mounting hardware & brackets for installation (fits up to 3.25" vehicle cross bars)
- 2.75" thick Memory Foam mattress
- Telescoping ladder with angled steps (will not bite into your arches!)
- Interior LED Light Strip (requires power from a USB power pack, not included)
- Annex room not included, but available soon
- Available in two sizes, the Alpine Fiftyone (51" PN: TS-1-1800BLK) and the SixtyOne (61" PN: TS-1-1900BLK)
- Compatible with the **Alpine Mounting Brackets** (PN: TS-3-1000), now available!

# PRO SERIES HYBRID TENTS

Tuff Stuff Overland is taking the Classic Roof Top Tent to the Next Level! The PRO Series Hybrid gives you the time-tested design of a Softshell tent with the fast setup time of a Hardshell. We redesigned and integrated the driving cover into the tent, gone are the days fumbling with the bulky driving cover to open and close your tent, the PRO Series Hybrid sets up in a matter of minutes with a quick un-zip of the side panel. Additional upgrades to the PRO Series Hybrid include, Telescoping Ladders, built in internal LED light, a Skylight to enjoy a night under the stars, and a Cross Bar system allowing you to mount additional accessories and camping gear on top of the tent.

## TUFF AIR PORTABLE AIR COMPRESSOR

Stay prepared on the road with the all-new Tuff Air Portable Air Compressor. Rugged and compact, the Tuff Air is the perfect accessory to take for every adventure.

- 5.65CFM air intake
- Heavy duty 12V motor
- 40 min @ 40PSI duty cycle
- Anti-vibration base
- 150PSI pressure gauge built directly into the coiled hose
- 10' insulated power cord with heavy duty alligator clips
- Stealth black powder coated metal cover
- Includes 26ft Coiled Hose, 150PSI Pressure Gauge, 3 Universal Nozzle Adapters For Inflatables, & Storage Bag

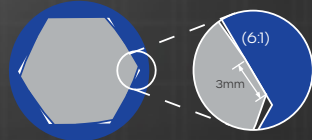

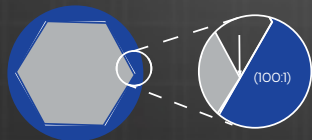

## ANTIWEAR 18-POINT CONTACT LUGNUTS

Our patented Antiwear Lug Nuts with 18-Point Contact is engineered to allow the inside of sockets to make 18 points of contact instead of the traditional 6. The increase in contact points lead to better torque distribution during installations and significantly reduces the risk of stripping lugs. No stripped lugs, no rust or corrosion. Our lugs are designed to last you a lifetime under proper care.

**RHI 18PT BULGE ACORN LUG**  
0.3mm contact area inside socket

VS

**TRADITIONAL BULGE ACORN LUG**  
3mm contact area inside socket

## NEOSHIELD AEROSPACE COATING

Our patented Neoshield aerospace coating adds an additional layer of protection against rust and corrosion. We use aerospace nanotechnology to add a special coating which minimizes surface pores on our metals. This leads to a smoother, shinier, and significantly more durable finish. Our cutting edge aerospace nanotechnology allows our lugs to hold up untarnished in 300+ hour salt spray testing. This is the last lug nut you will ever use.
